MENTORING POLICY

Our college offers a 'Mentoring System' through which every faculty member is assigned a group of students (25-30) in the first few weeks after admission. The main objective of implementing mentoring system is to provide a comprehensive support and motivation to students. So that they can excel in academic as well as in non-academic fields. This system ensures that the students become able and overcome their hurdles to achieve their academic goals and have successful careers.

Objectives of student mentoring policy

- Provide students support and counselling to students in their academic, professional and intellectual development.
- Prepare students for skill courses and bridge courses.
- Boost confidence in students to achieve higher goals.
- Offer psychosocial support for the students.
- Identify slow learners and their difficulties, so that institute can provide a separate mechanism to help them in studies.
- Help the students to develop the soft skills.
- Students get access of various resources provided by college.
- Guide the students about their life, health, mental and emotional well-being.
- Help to generate curiosity and interest in academic as well as extra-curricular activities among students.

Role of Mentors and Mentees

- Each mentor must have two or three meetings of mentees assigned to him/ her in each semester.
- Mentor should provide support, guidance and learning opportunities to mentees.
- Mentor should listen, discuss the problems of his / her mentees without being judgmental, and counsel to enhance the mentee's self-esteem.
- Mentors will play the major role in pointing out the slow learners. Mentors will pay special attention for them. This may help the institution reduce the rate of dropout at initial level.
- The major criteria for identifying slow learners are their performance in class tests, feedback forms and personal interaction with those students.

- If any student needs special academic tutoring, the mentor may direct the mentees to an appropriate faculty and may even ask the faculty to help their mentees in a particular area.
- Mentee has responsibility to initiate interaction with his/ her mentor if mentee is facing any kind of problems at curricular, extra-curricular or personal level.
- Mentor submits a brief summary on the status of his mentoring group to the committee.

एफ . वाय . बीकॉम मेनटोर ग्रुप निरीक्षण अहवाल २०२२-२३

चालू शैक्षणिक वर्ष २०२२-२३ मध्ये एफ . वाय . बीकॉमच्या IC111 to IC138 आणि IC309 to IC336 अशा एकूण ५६ विद्यार्थ्यांचा ग्रुप मेनटोरसाठी माझ्याकडे आहे. दि. १५/०२/२०२३ या दिवशी त्यांची मीटिंग घेण्यात आली तेव्हा २३ विद्यार्थी हजर होते. २९ विद्यार्थ्यांनी फॉर्म भरून दिला. मेनटोरचे स्वरूप व उद्देश यांची माहिती त्यांना देण्यात आली. महाविद्यालयातील NSS,NCC,DLLE,sports,AVISHKAR इत्यादी उपक्रमांमध्ये सहभाग घेण्यासाठी प्रोत्साहित करण्यात आले. त्यांची वैयक्तिक ,शैक्षणिक माहिती ,छंद, आवड ,समस्या इत्यादी माहिती भरून घेतली. मिळालेल्या माहितीनुसार बऱ्याच विद्यार्थ्यांना इकनॉमिक्स व बीसी ही विषय इंग्लिश मधून कठीण जातात. बस वेळेत न मिळाल्याने कॉलेजला यायला उशीर होतो त्यामुळे सुरुवातीच्या लेक्चरला बसता येत नाही.

J. S. M. College, Alibag- Raigad **Student Mentoring System**

J.S.M. College, Alibag is situated in the Capital town of Raigad District and it is one of the first few colleges in the Raigad district established in the year 1961. Though it is situated in the urban area many of the students are coming to the college from nearby villages in the radius of 20-25kms. i.e. from rural area. Majority of them have completed their secondary and higher secondary education in vernacular medium. They lack proper academic background and financial back-up.

Therefore it becomes very essential to give the mentoring to the students. Mentoring of students is an essential feature to render equitable service to all the students of the college with varied background. As per the suggestion of IQAC of the college a student Mentoring system has been develop in the college with the following aims and objectives :

- To ensure that academic and professional performance of the students should be enhance up to their potential.

The following achievements are aimed by implementing the system.

- a. To enhance the student – teacher interactions (by increasing contact hours).
- b. To enhance students attendance and academic performance
- c. To enhance the percentage of passing of the students
- d. To give the academic guidance through the schemes like remedial coaching
- e. To identify the students problems and to guide them to resolve the same.
- f. To give equitable service to the students.

The system has been implemented in the academic year 2019-20. With a wide variation in the student population in regard to educational and family background the system ensure to provide a better understanding of individual students and bring out their maximum potential. It is also a very important tool in mitigating the issues of drop outs and other individual problems of the students.

Design of the System:

IQAC of the college has to play an important role in the implementation of the system.

- Students are categorised based on the course of the studies and also on the basis of their core studies. They are divided into a group of 15-20.*
- Each group will be assigned to a teacher (Mentor). A mentor shall have a maximum of 20-25 students (Mentees).

A mentor will perform mentoring duties with the following guidelines to maintain the uniformity.

Mentor Expectations:

- Contact their mentees at least once a month.
- Keep confidential all proceedings between mentor and mentee.
- Offer criticism and critiques in positive and productive ways.
- Help mentees expand their repertoire of teaching skills, strategies, and knowledge.
- Communicate a passion for teaching as helping students to develop their potential.

Mentee Expectations:

- Reply to mentor contacts at least once a month.
- Keep confidential all proceedings between mentor and mentee.
- When desired, ask for help with grade-level or subject matter expertise, the use of technology, classroom management and procedures, or better teaching methods.
- Respond to suggestions and criticism in positive and productive ways.

“The delicate balance of mentoring someone is not creating them in your own image, but giving them the opportunity to create themselves.”
